25X1A

1. There are attached for your review and concurrence two proposed notices pertaining to Military Per Diem Allowances.

2. It is proposed that the subject notices be issued in order to implement paragraph 1, Reference A, which established 1 May 1955 as the effective date whereby detailed military personnel would henceforth be authorized per diem rates consistent with their parent organization, unless otherwise specifically authorized. In addition, the proposed notices would effect an amendment of outstanding letters of authorization as of a specific, future date in order that the provisions of Tentative [REDACTED] would become applicable to all letters of authorization (See paragraph 5 of Reference B, attached).

3. It is requested that the Deputy Director (Plans) insert an effective date in paragraph 2b of the proposed headquarters and field notices. This date should be projected to allow sufficient time for processing and distribution of the notices in DD/P and for a minimum of 15 days advance notice to all field stations.

4. Inasmuch as these notices are considered to be of a priority nature, it is requested that your Office expeditiously conclude its review of the attached notices.
